In the case of a student the certificate should be signed by the head of his last school or college and countersigned by the District Officer (in a Presidency Town and in the towns of Bangalore, the Commissioner of Police) or Political Officer in the case may be.

Applicants for assistance by destitute Indians who desire repatriation and by students who owing to unfavourable circumstances are unable to complete their course of education cannot be dealt with satisfactorily unless the person are in a position to produce evidence of identity. The possession of a certificate of identity will be specially useful to young men of good family, as it may enable the Secretary of State to obtain for them credit and other advantages.

Those who are distressed, however, of travelling in countries where a passport will be necessary are advised to furnish themselves with such a document also before leaving India. In lieu of, or in addition to, a certificate of identity. It should be remembered that no person is entitled to a passport, as of right, on the ground that he is a British subject and the production before authorities outside India of a certificate of identity, unless supplemented by documentary evidence of respectability, is not sufficient to ensure that a passport will be granted.

(a) no corrupt practice was committed at such election by the candidate and that any corrupt practice committed was committed solely by the other and without the connivance or abetment of such candidate; and

(b) such candidate took all reasonable means for procuring the commission of corrupt practices at such election; and

(c) the corrupt practices committed were of a trivial, unimportant and limited character; and

(d) it is all other respects the election was free from any corrupt practice on the part of such candidate or any of his agents; then the election commissioner may find that the election of such candidate is not void.

11. (1) At the conclusion of the inquiry the election commissioner shall declare whether the election of the returned candidate is valid under rule 12.

III.—REGULATIONS TO BE OBSERVED BY THE CANDIDATES.

Both at Madras and in the Mysnad.

(1) Candidates in all the subjects must bring with them for use in the examinations their own rulers, compass, knives, pens, pencils, carbon papers and ink of two or more colours (other than black) for map-drawing, drawing lines in Book-keeping, etc.

Candidates in the island will be allowed to transcribe their shorthand notes with a Typewriter. They will not be supplied with any 'thick' paper for the purpose, but will be allowed to bring with them their own 'thick' paper, if they wish to use such paper. The use of carbon paper will on no account be allowed in transcribing the shorthand notes with a Typewriter. If the machines used by a candidate, however, goes out of order, no extra time will be given to him to compensate for loss of time while the machine is out of order and is being put right.

At the end of the period allotted, candidates must give up both their shorthand and longhand performances to the Chief Superintendent for retention to the Examiner.

(2) INSTRUCTIONS REGARDING THE EXAMINATIONS IN TYPEWRITING.

Both at Madras and in the Mysnad.

1. Candidates in Typewriting, will have to bring their own Typewriter, ruler, margin and also the necessary carbon paper with them and must specify clearly on their answer papers, the particular kind of machine used by them so otherwise their answer papers will not be valued.

2. The following is the list of the names of Typewriters recognised for use in the examinations:—

The Remington, Remington Portable, New Model Remington No. 12; York; New Century; Smith Premier; D'Arco; Eclair; Underwood; Underwood Portable; Oliver; Armstrong; Standard; Picking; Stevens's Visible; Geo Typewriter; For Visible; Baker; Victor Typewriter—Model No. 3 and No. 22; Monarch; Newton; Woodstock Standard Visible; Royal Standard No. 10; Rex Visible; Moly; Myosotis; Tensentable; Elita; Superior Typewriter; British Empire Typewriter; Corona Portable No. 4; All-British Standard Typewriter; Royal Portable; Nova; Koppel; Imperial Typewriter Model No. 10; or L.C. Smith & Bros. machine.

None—Only one particular kind of machine should be used by the candidates throughout the examinations.

3. Seats and accommodation for the candidates:—

(a) Candidates will be permitted to bring with them for their use at the examination hall their own tables, chairs or stools, if they choose; provided they take care to see that by so doing, they do not give room for the slightest disturbance being caused in the examination hall.

(b) The candidates will be allowed to take their seats in the examination hall five minutes before the appointed hour for giving out the question paper and supplied with the necessary paper for answering and get their machines ready for work with paper inserted in them and to have their requisite number at the left hand corner of their answer papers and the particular kind of Typewriter they use at the right hand corner, typed before the question paper is given to them.

4. Candidates are strictly told not to write anything on the question paper itself. Calculations or any other parts they wish to note must be written on one of the blank sheets supplied to them and such sheets including the carbon papers should be left on the table. Further candidates are strictly warned not to take carbon papers more than what is required of them in the question paper.

5. The candidates will, if necessary, be examined in batches, but at least every four candidates for the lower grade, at least every two candidates for the higher grade, must have one machine among them.

6. Managers and Instructors of Institutions concerned are expected to see that their pupils are supplied with Typewriting machines in proper working order.

7. Managers and Instructors will be allowed into the examination hall at the intervals between the various batches to inspect the machines and to remedy any defects. They should take care to see that they do not remain in the examination hall while the question paper is being distributed to the candidates in the examination hall or while their pupils are answering the question papers.

8. If, however, a candidate reports to the Superintendent that his machine has gone out of order, the Superintendent will intimate this to the Manager or Instructor, if he is waiting outside on the premises, and will permit such Manager or Instructor to enter the hall (though the candidates may be at work) to inspect the machine and to remedy the defect or to supply another machine. It must, however, be clearly understood that the Superintendent incurs no responsibility in this matter; his office will be purely ex gratia, the whole responsibility resting on the candidate and the Manager or Instructor.

A similar concession will be allowed in the case of a private candidate, if he has someone outside who is willing to inspect the machine and put it right, etc.

No extra time will be given to candidates to compensate for loss of time while the machine is out of order and is being put right.

in the Mysnad.

Heads of Institutions who are desirous that their pupils should be examined in batches and private candidates who desire to be separately examined should make the necessary arrangements with the Chief Superintendent concerned four days before the examination and furnish him with all the necessary information as to the number of candidates and machines and the time at which each batch will attend on the day fixed for the examination.

At Madras.

Lower Grade—Candidates' Hall Ticket. Tickets of admission specifying the particular batch (first or second) as to both in which the candidates are to appear will be issued on Saturday, the 22nd April, between 11 a.m. and 5 p.m. at the Office of the Commissioner for Government Examinations, Old College, Mangalore. These tickets should be shown at the entrance to the examination hall. Candidates who produce tickets will be admitted to the batch specified in the tickets. Candidates who do not provide themselves with tickets cannot claim to be admitted to any particular batch. They will be admitted only, if spare seats are available in the hall, i.e., after seats are

reserved for those who have registered their names and obtained tickets for the batch. Candidates who do not hold tickets will accordingly have to wait at the entrance to the examination hall from the hour of commencement of the first batch and take their chance of being provided with seats in the first or in any subsequent batch. To avoid all inconvenience and possible disappointment, heads of institutions who are desirous that their pupils should be examined in batches and private candidates who desire to be similarly examined are particularly requested to call at the office on Saturday, the 27th April, with all the necessary information as to the number and name of candidates that will attend at the particular batch on the day fixed for the examination and obtain tickets of admission accordingly. No ticket can on any account be sent by post, whether in books of institutions or in private candidates.

Candidates that have such a separate machine and that do not want to be examined in batches are expected to appear for their examination with the third batch for the lower grade. But this does not preclude them from registering their names for both batches and obtaining tickets accordingly.

Candidates for the Higher grade may appear for the first or second batch at their option and no ticket accordingly is issued for this grade.

Institution's Hall Ticket.—Managers or proprietors of institutions and other persons who wish to be allowed into the examination hall in the intervals between the examinations of the various batches to inspect the machines and remedy any defects, are requested to call at the office on Saturday, the 27th April, and have their names registered. Tickets of admission, specifying their names, the institutions to which they belong, etc., will be issued to them and these should be produced at the entrance to the examination hall.

Both of Houses and in the Interval.

(a) Attention is particularly drawn to the following rules:—

1. No candidate will be allowed to enter the examination hall unless he wears a clean and decent dress, and in all cases where good manners become it, a suitable covering for the head, nor will he be allowed to keep his shoes on when they are a pair of English pattern, and socks and trousers are worn also.

No candidate suffering from any contagious disease will be admitted to the examination hall.

2. Candidates are expected to take their seats in the examination hall at least five minutes before the time fixed for giving out the question papers. No candidate will be allowed to quit the examination hall on any day until the expiration of half an hour from the time fixed for the commencement of the examination and candidates arriving after the expiration of that half hour will not be admitted.

3. No candidate will be allowed to re-enter the examination hall during the hours of examination after once quitting it, nor to leave the hall without firstly giving up his answer papers.

4. Strict silence should be maintained in the examination hall.

5. No candidate will, on any account, be allowed to take into the examination hall clock, books, or portion of a book, ruled sheets, manuscripts or paper of any kind. Any candidate detected in the violation of this rule or detected in speaking to, or in any way communicating with or copying from each other and in communicating with any

other person outside the examination hall or having access to any table provision will be sent out of the hall forthwith, and his conduct reported to the Commissioner for disciplinary action. The use of mathematical instruments for drawing squares or ruling lines will, however, be allowed.

6. Candidates are forbidden to note down the answer to any question on the question paper itself; they will not be allowed to take any papers, except their question papers, out of the examination hall.

7. Candidates are forbidden to tear up paper, or to throw ink or papers on the floor. All 'spoil' copies, etc., should be left on the desk where the candidate has been writing.

8. Candidates may have to write their answers on both sides of the paper supplied to them, and they will receive the necessary instructions on this point in the examination hall from the Chief Superintendent of the examination.

9. No candidate will be allowed to exceed the time assigned to each paper.

10. As soon as candidates have finished writing their answers and wish to give up their answer papers, or at the end of the period prescribed for each particular part of the examination, each should rise from his seat and remain standing until one of the Superintendents has gone up to him and has received his answer paper from him. Any candidate wishing to ask any question of the Superintendent will pursue the same course but will on no account leave his seat.

11. Candidates whose names are not in the printed list furnished to the Chief Superintendent must submit a written declaration through the Chief Superintendent giving full particulars in regard to themselves including their address, and furnish such evidence as may be possible of their having applied for admission to the examinations at the proper time and paid the prescribed fees. The answer papers of such candidates will not be valued unless it is clear that the omission of their names is due to no fault of theirs.

12. Candidates are requested to note carefully the particulars printed in the manual list and satisfy themselves whether they tally with those as given to them in their applications for admission to the examinations, so that any alteration with regard to their initials, names or other particulars might be pointed out by them in writing to the Chief Superintendent.

13. Candidates desiring to change their place of examination without previous permission, or appearing at any centre other than the one at which they ought to have appeared according to the notice published in the Gazette, must not expect to have their papers valued or their results published. In all cases where permission has been granted, the memorandum or notice permitting the change should be produced for the satisfaction of the Superintendents.

14. The answer papers should be stitched or pinned together at the upper left hand corner, and the whole folded into four, lengthwise (not crosswise into four). The register number, the place of examination and also (in the case of the examination in shorthand, the particular system adopted) and (in the case of the examination in Typewriting, the name and number of the Typewriter used) should be written out clearly by the candidate on the top right-hand side of the first page

of the answer paper, as well as on the top of the paper after it is folded.

(14) *Off Candidates* are entirely responsible in order at their own risk on the answer paper.

(15) Candidates should desist from understanding that [before the examination] any one of their papers is incorrect, the [examiner] of taking their answer papers—particularly any answer paper, as to which the candidate registers a protest and none of them will be valued.]

(16) Any candidate who does not behave properly towards the Chief and Assistant Superintendents of the examination or in respect of having had recourse to malpractice or in violation of the rules to have his candidature cancelled and also to be deprived from appearing again for any of the examinations under the control of the Commissioner for such term of years as the Commissioner may think fit; or, if the Commissioner is not satisfied for any reason whatever as to the trustworthiness of his results, he may be required to undergo re-examination at some future date to be fixed by the Commissioner in any one or more of the subjects of the examination for which he appears, his success or failure being determined as the result of such re-examination.

(17) Candidates are forbidden to communicate with the Examiners; should they do so, their answer papers will not be returned and further their conduct will be reported to the Commissioner for any action that he may deem fit.

(18) No information can be furnished in regard to the results of a candidate in any subject or in regard to the marks obtained by him or in regard to the particular sections or subdivisions in which he may have failed. The names of successful candidates in each subject arranged in two classes, First and Second, will be published in the Port St. George Gazette. The journals for each grade of a subject as published in the Gazette is complete and final. Applications from or on behalf of unsuccessful candidates asking for information as to the cause of failure or for a revocation of the answer papers will not be attended to. No revocation of answer papers is permitted.

STATEMENT OF OBJECTS AND REASONS

In March 1929, the Government of India, in pursuance of an undertaking given in September 1928, in the course of the debate on a non-official Resolution moved in the Legislative Assembly, appointed a Committee to enquire into the arrangements in force for pilgrims proceeding to the Hajj from India. The Committee submitted an extensive report which contained several recommendations for the amendment of the Indian Merchant Shipping Act, 1923. The Government of India have examined those recommendations in consultation with Local Governments and Administrations, shipping companies, Chambers of Commerce, and other interested parties including the Shipping Raj Committee of the Indian Legislature, and have come to the conclusion that it is desirable that the Act should be amended in several respects. The Bill is designed to provide for the carrying out of the requisite amendments. Opportunity has also been taken to make provision for effecting a few small amendments arising out of the International Sanitary Convention of 1926. The Convention has not yet been ratified by India, but in view of the likelihood that it will be ratified in the near future, it seems advisable that the Act should now be brought into conformity with the requirements of the Convention, so as to avoid the necessity of amending the Act a second time if and when the Convention is ratified. The reasons for the several amendments proposed to be made are stated in the Notes on Clauses.

NOTES ON CLAUSES.

Clause 9.—This clause should be read along with clause 11, relating to new section 20A. It contains one of the amendments intended to ensure that all pilgrims, unless specially exempted, either purchase return steamer tickets or make deposits with Government in accordance with the provisions of new section 20A, before leaving India, whether they travel by an ordinary pilgrim ship or not. It is necessary to extend to

pilgrims not traveling by ordinary pilgrim ships the obligation to purchase return steamer tickets or make deposits because experience has shown that persons who do not possess adequate means for the performance of the pilgrimages occasionally proceed to the Mecca by sea-pilgrim ships without making provision for their return passage, and have eventually to be repatriated at despatches at Government expense.

Clauses 5, 6, 7, 11 (sub-section (2) of proposed section 265B), 15 and 18 (2) (c).—These clauses are designed to give effect to the unanimous recommendation of the Haj Inquiry Committee that the present practice of allowing pilgrims to cook their own food during the voyage should be abolished, and that shipping companies should be required to feed the pilgrims whom they carry. Nearly all pilgrims supply and cook their own food on board ship at present, but the practice is both unsanitary and dangerous; the decks of ships are littered with food-stuffs and the danger of fire is not negligible. It is believed that it will be to the advantage of pilgrims to do away with the existing system and that arrangements should be made for the feeding of pilgrims by the shipping companies who carry them, the cost of the food so supplied being added to and included in the price of tickets charged by the companies.

Clause 6, 8 (4) (d) and 16 (7).—These clauses are designed in order to bring certain provisions under the Act into line with the provisions of the International Maritime Convention of 1923. The provisions, most of which can be found under the sections of the Act which are referred to in these clauses require to be raised so as to make the Act conform to the Convention.

Clause 7.—This clause gives effect to the recommendation of the Committee that the minimum space for each pilgrim in the between decks, now prescribed by rules made by the Governor General in Council, should be laid down in the statute itself.

Clause 8 (including sub-clause (4) (d)) carries out the recommendation of the Committee that medical officers and attendants on pilgrim ships should give their services free to all sick pilgrims.

Clause 9 and 12 (a) (i) and (ii).—Sections 205 and 206A of the Act at present require two separate bonds for each voyage of a pilgrim ship. As this causes inconvenience and expense to the shipping companies, it is proposed, as recommended by the Haj Inquiry Committee, that a shipping company should be allowed to give a single bond covering all or any of the ships owned by it, for all the voyages of those ships during a pilgrim season. The amount of the bond will be on the rate of ten thousand rupees for each ship for the whole pilgrim season. It is intended to give effect to the proposal by placing all the provisions relating to the bonds in new section 205 and deleting such references in section 206A.

Clause 23 gives effect to the recommendation of the Committee that the immunisation of pilgrims against cholera and typhoid, before their departure from India, should be made compulsory, with a view to protecting their health and maintaining the character of their being required to land at the Kaaba.

Quarantine Station during the outward journey in accordance with the provisions of the International Sanitary Convention of 1906. It is intended that arrangements should be made for carrying out the immunisation of pilgrims and for providing them with proper certificates in their own districts as far as possible. Any pilgrims who are not satisfactorily immunised in their own districts will be immunised and provided with the necessary certificates at their port of embarkation.

Clause 11, new section 20A.—The purpose of this clause is to require that every pilgrim, whether Indian or foreign, and whether travelling by the lowest class available on a ship or by a higher class, shall either purchase a return ticket or make a deposit with Government sufficient to cover the cost of his return sea passage and his railway fare to the station nearest his home unless he has been exempted from this requirement for special reasons, e.g., on the ground that he has already made a deposit with some other Government or is a bona fide *de jure* subject returning to his home. At present there is no obligation on first and second class pilgrims to purchase return steamer tickets or make deposits, but it is proposed to extend this obligation to them in order to bring the Indian law on the subject into line with the provisions of the International Sanitary Convention of 1906. It is also proposed to do away with the provision in the existing law by which a pilgrim is exempted from the obligation to purchase a return ticket or make a deposit if he makes a declaration that he does not intend to return to India within three years from the date of declaration. The declaration system has proved a failure, not so much because pilgrims make a declaration with the deliberate intention of violating it but because they are ignorant of the full facts and the conditions of life in the Hijaz. In consequence they have to be repatriated at Government expense or detained within a few months of their departure from India. The abolition of the system was recommended by the Haj Inquiry Committee and is necessary in the interests of the pilgrims themselves as well as of the general taxpayer.

The explanation to new section 20A should be read with clause 2 and the note above on that clause.

New section 20B.—Sub-section (1) repeals sub-section (1) of the present section 20, consequently amended. With reference to sub-section (2), see the note above on clauses 3, 4, 5, 6.

New section 20C takes the place of sub-section (2) of the present section 20, but it contains a more detailed scheme of refunds of deposits and passage-money.

New section 20E fills a gap in the present Act by making statutory provision for the lapsing of unclaimed deposits and for the vesting in Government of the value of expired tickets which has not been refunded under new section 20C. It is intended that some value lapses under this section shall be placed at the disposal of the Port Haj Committee which will be set up to look after the interests of pilgrims.

Class 19.—As regards sub-classes (i) (i) and (ii), the note above on clause 9 may be seen. Sub-classes (i) (ii) reduce the waiting period of twenty-five days to fifteen days during the six weeks immediately following the Haj day.

Sub-classes (k) has been inserted as the British representative at Jeddah is now a Minister. This change has been made throughout the Bill.

Class 22 makes a drafting amendment.

Class 14.—Sections 20B and 20C, as they now stand, have the undesired effect of preventing shipping companies from advertising passenger programmes of sailings. The amendments proposed will allow them so to advertise provided the advertisements show clearly that the dates advertised are approximate only, and that the correct date will be advertised later in each case as required under section 20B.

Class 15.—See note above on clauses 3, 4, 5, etc.

Class 16.—As regards sub-classes (i) (a), see the note above on clauses 3, 4, 5, etc.

Sub-classes (i) (b) give effect to the recommendation of the Haj Inquiry Committee that shipping companies should be required to provide, at payment, extra duties over and above the duty rebates, for such passengers as can afford them.

Sub-classes (i) (c).—See the note above on clause 5.

Sub-classes (i) (d).—See the note above on clause 11.

Sub-classes (i) (e) is in pursuance of a recommendation made by the Haj Inquiry Committee that pilgrims should be encouraged to obtain their passes in the districts where their homes are situated. For this purpose, it is proposed to levy a small fee for passes which are issued in ports to pilgrims not resident therein.

Sub-classes (f).—See the note above on clause 5, etc.
